

INCE COUNTRY COVERAGE

AND SUPPORTED BEARER

As of March 2020

INCE's Chip Cards allow a smooth change of the supported mobile transmission standards (Bearer) NB-IoT, 2G, 3G and 4G. Each card transmits and receives on all supported bearers, provided that the wireless technologies are locally available and the mobile communication module used also supports the relevant wireless technologies.

INCE's M2M/IoT mobile communications services currently support the following mobile transmission standards in the covered footprint (as of March 2020):

Country / Region	2G	3G	4G	NB-IoT
